For Immediate Release

Catalyst to be Featured in the eDiscovery Pavilion at AIIM Expo and Conference

Denver, Colorado, April 9, 2010—Catalyst Repository Systems announced today that it would exhibit at AIIM International Expo and Conference April 20 - 22 at the Pennsylvania Convention Center in Philadelphia as well as participate in a panel discussion titled Containing Cost and Mitigating Risk in eDiscovery.

For more than 60 years, AIIM has been the leading non-profit organization focused on helping users to understand the challenges associated with managing documents, content, records, and business processes.

This year’s conference will highlight e-Discovery, compliance and litigation throughout the event, enabling attendees to get the knowledge and solutions they need to comply with an e-Discovery request. The majority of the focus will be on the eDiscovery Pavilion, where attendees can visit with vendors and attend panel discussions, including one put on by Catalyst and El Fresko Technologies.

“Two of the biggest concerns around eDiscovery for any corporation are reducing costs and mitigation risk,” said Chris Toomey, Director of Managed Review at Catalyst and AIIM panel member. “This panel will discuss chain of custody issues, non-linear review techniques, statistical sampling, document clustering and review metrics reporting. We are excited to join other industry leaders and address some challenging questions.”

To learn more about the conference, visit the AIIM Expo website http://www.aiimexpo.com/. To learn more about the eDiscovery Pavilion, visit the Doculabs theater page http://www.aiimexpo.com/doculabs-live/ediscovery-pavilion.
